

FOR CRUELTY TO A DYING HORSE

F. G. Wells Fined \$25 in Police Court—Case Will Be Appealed.

The case of F. G. Wells, 645 West South Temple street, charged with cruelty to animals, created considerable interest in police court yesterday afternoon. Wells is a teamster, and keeps several horses. One of the animals became sick, and, according to the testimony heard at the trial yesterday, he put an iron chain around its neck and dragged it from the east end of the barn, around the south side to a pen at the west end of the building.

F. J. Tavey, who resides at 651 West South Temple street, testified that he saw Wells dragging the sick animal around the premises. A chain was tied around its neck to which a team of horses was attached. He stated that the animal was dragged a distance of thirty or forty feet. Mrs. Tavey, who had called her husband's attention to the sick horse, told a story similar to the one related by Mr. Tavey on the witness stand.

Dr. A. S. Kendall, veterinary surgeon and humane officer, stated he had been notified that Wells had treated his horse cruelly, and he went to the man's home to look into the matter. He found the animal in a dying condition, and saw the chain and the path where it is alleged the horse had been dragged.

The owner of the horse testified that he always made it a point to give his horses the best care possible, and that he had not deviated from the rule in this case. He claims to have had the animal upon a scaffold, as he called it, when he removed it from the east to the west end of the barn. He only put the chain around the beast's neck and shoulders when he pulled it up onto the scaffold, so he says.

Judge Bowman decided the man was guilty of abusing the horse, and imposed a fine of \$25. The judge stated that he was inclined to make the fine \$50, but the assistant city attorney suggested something different, and what the assistant city attorney says usually goes.

Wells is being represented in the case by Attorney C. B. Dicht, who moved for a stay of twenty-four hours that an appeal might be made. The stay was granted, and Wells is out on his own recognizance.

FREEDOM FROM JAIL.

Hattie Johnson Discharged on Habeas Corpus Writ.

Judge T. D. Lewis yesterday ordered the discharge from jail of Hattie Johnson on motion of her attorney, William Newton. The Johnson woman had been convicted of vagrancy in the police court and given sixty days by Judge Bowman.

Newton obtained a writ of habeas corpus on the ground that the commitment had been made in her absence and Judge Lewis held that this was sufficient ground to order the prisoner's discharge. E. A. Rogers appeared for the city. The woman, who is young and rather good looking, will be released.

Dr. Hodges, Dentist, removed to Elko hotel, corner Third South and Main.

FOR "HOODLUMACY."

Samuel Lufkin, Aged 17, Goes to Industrial School.

Samuel Lufkin, aged 17 years, was sent to the state industrial school by Judge E. G. Gowan of the juvenile court yesterday. Lufkin was convicted of "cutting the air" on a Salt Lake train Friday. Practices of hoodlums on these trains will be severely dealt with this year.

IMPROVEMENTS PLANNED FOR CITY INVOLVING EXPENDITURE OF TWO MILLIONS OF DOLLARS

During the next year the city administration will spend over \$2,000,000 for improvements and general public work in the city. This will include the amount of the \$900,000 bond issue and all maintenance work, as well as the new work usually rendered necessary in the course of every year.

The extensions to be undertaken comprise: Paving, \$68,286.02; sewers, \$483,746.65; sidewalks, \$387,511.54; and water mains, \$208,020.29.

These figures, given out by the city engineer's office, include the whole of the city work to be done down to the smallest piece of repairing.

The new improvement work decided on is not by any means that which is most needed, but has been carefully chosen as the work which will make the most show and cost the least for the city's portion.

From the figures compiled by the city engineer it appears that the contemplated work will give to Salt Lake, with what it now has 25 miles of paved streets and 210 miles of sidewalks of cement, 120 miles of sewers, 190 miles of water mains, and nearly 50 miles of curbing and guttering. It includes the balance of sidewalk extension No. 108, with 50 miles of walks, and one of the biggest sidewalk contracts let by an American city at any one time.

The new work will include 42 miles of sidewalks, 10 miles of paving, 29 miles of curbing and guttering, 20 miles of water mains and 20 miles of sewers. Much of the sewer work is contingent upon the intercepting sewer ever being put in working condition.

No account is taken of the proposed storm sewer which the city engineer has recommended, but which there is little likelihood of starting this year. This will cost \$500,000, if it is ever built.

The itemized statement of work which follows was compiled by L. C. Kelsey, city engineer, and is as complete as can be obtained:

MULLETT & COMPANY'S AFFAIRS STRAIGHTENED

Credit for Successful Handling of Situation Is Given to J. W. Edmunds.

The George Mullett & Co. store is now over its financial troubles and can meet its obligations. The receiver appointed some time ago, reported to the district court Wednesday that the concern was now in a position to again manage its own business and at his request his bill of \$1250 for services in winding up the company's affairs was allowed and he was discharged.

The final report of the receiver fixes the assets of the company at \$145,630 and the liabilities at \$15,790.25.

Assets: Cash, \$8,652.84; merchandise, \$112,529.34; furniture and fixtures, \$1,331.86; horses and wagon, \$300.

Liabilities: Accounts payable, \$56,750.25; bills payable, \$19,950.

Credit for the successful liquidation of the company's affairs, which enables it to continue in business as a going concern, is given to J. W. Edmunds, who carried through the receivership, settled the indebtedness and arranged affairs generally with a view to the maintenance of the concern and the protection of the creditors. Mr. Edmunds will remain with the company as an active director.

S.S.S. NATURE'S TONIC

The very great majority of persons need a tonic in the Spring or early Summer. The system undergoes a change at this season and the entire physical machinery is disturbed. The general bodily weakness, a tired, worn-out feeling, lacks appetite, poor digestion, a half sick feeling and a general run-down condition of the system, show that the blood is weak or anemic, and a blood purifying tonic is needed to build up the deranged system and enrich the blood. The use of S.S.S. at this time may save you from a long spell of sickness, and it will certainly prepare you for the long, hot Summer. Many people have put off using a tonic until the system became so weakened and depleted it could not successfully throw off disease germs, and have paid for the neglect with a spell of fever, malaria or some other debilitating sickness. S.S.S. is Nature's ideal tonic. It is a composition of the extracts and juices of roots, herbs and barks which science and experience have proven are best fitted for a tonic to the human system. It contains no minerals of any kind and is therefore perfectly safe for persons of any age. S.S.S. tones up the stomach and digestion, rids the system of that tired, worn-out feeling, and imparts vigor and strength to every part of the body. It purifies and enriches the blood, stimulates the secreting and excreting members to better action, quiets the overstrained nerves, and makes one feel better in every way.

EXTRA GUARDS ON.

State Prisoners Doubly Watched During Work at Prison.

A number of extra guards are on duty at the state prison now, the night shift being especially strong. The reason for the increase in the force is that the central wall is being torn down to be enlarged 20 feet to the east and every precaution is being made lest an escape be made through the gaps left in the prison wall by the stone masons.

There is considerable work connected with the extending of the stone wall, and the contract will probably not be completed before April 20.
